OC After Action Review

OC AAR Comments

Sustains

- “More awesome ROTC lane walkers!”
- The hot meal half-way through STX was well timed.

OC AAR Comments

Improves

- TACs:
  - Evaluations need to be consistent throughout states.
  - There needs to be more squad TACs to provide more one on one. training.
- Training Schedule:
  - A solid training schedule should be provided to everybody.
  - Events that cause injuries should be moved to the end.
- Equipment:
  - Only issue equipment that will be utilized and that works.
- STX:
  - Utilize smoke and grenade simulators.
  - Refresher battle drill classes built in before STX.
  - Provide more ammo to facilitate 6 STX lanes a day.

Staff After Action Review

Staff AAR Comments

Sustains

- STX:
  - Provided a great training event to facilitate learning and leadership.
  - Continue to provide regular and variable lanes “to provide a foundation of tactical knowledge and real world situations.”

Staff AAR Comments

Improves

- Training Schedule:
  - Eliminate events that aren't required.
  - Shorten TAC training and provide more time for STX training.
- MOUT:
  - Give OPORD in a timely manner.
  - Give more practice on battle drill and incorporate at the end of the FTX.
- TEWT:
  - OPORD was below appropriate level for OCs.
  - The range should provide adequate training aids.
- FLRC:
  - Rotations should be longer to provide for fair evaluations.
- Obstacle Courses:
  - Backload to avoid injury.

Staff AAR Comments

Improves Cont'd

- SQD/PTRL STX:
  - Eliminate events that aren't required.
  - Shorten TAC training and provide more time for STX training.
- Equipment:
  - MILES distracts from training if it doesn't work and if OPFOR is not wearing it.
- Munitions:
  - There was not enough ammunition for STX lanes.
  - Artillery/Grenade simulators could have added a "dimension of realism during training."
- TACs:
  - There was no clear CoC for TACs with 4 different Majors to report to.
